

Product Development Partner: PTC and Keyshot Reseller

Product innovation comes in many forms – from groundbreaking designs and features to new benchmarks for performance and costs. Boston Engineering provides the tools and services to transform your ideas into successful products.

Our Capabilities

As the largest PTC ChannelAdvantage Partner in the Northeast, we understand the challenges and opportunities facing product development and engineering teams. In fact, we are the only PTC reseller that also uses PTC software for its product innovation, design, and engineering consulting services.

Boston Engineering complements its PTC software and infrastructure offerings with Product Development Systems Services to align your product development teams, processes, and tools. Boston Engineering supports clients across multi-CAD environments, product development maturity levels, and evolving business requirements.

Certified PTC Training

We provide certified training for PTC software tools and packages including:

- Lunch-and-learn sessions
- Hands-on workshops
- Online and self-paced training

Licensing, Support, and Upgrades

We help to increase your efficiency and to expand your capabilities by implementing software updates and ensuring that your entire PLM system is running at peak performance.

Purchase, renew, or upgrade your software licenses with Boston Engineering for best-in-class service and support.

KeyShot Integration

As a certified reseller of KeyShot 3D rendering and animation software, Boston Engineering provides product development teams – including designers, engineers, and marketers – with added tools to create compelling visuals and images quickly. KeyShot is compatible with PTC Creo and other product development tools.

End-to-End PLM Services

Largest PTC reseller in the Northeast

We serve New England and the Middle Atlantic, and support regional user groups in this area:

- Connecticut
- Maine
- Massachusetts
- New Hampshire
- New Jersey
- New York
- Pennsylvania
- Rhode Island
- Vermont

Market Expertise

We complement our PTC skills with deep insights into our clients' markets and technologies, including:

Industries

- Consumer Products
- Defense & Security
- Industrial & Commercial
- Medical Devices

Capabilities

- Industrial Design / Design for Manufacturing
- Internet of Things (IoT)
- Product Engineering
- Robotics

Client Impact

1) "Boston Engineering displayed an exceptional work ethic and a steady commitment to satisfy our expectations during our Pro/INTRALINK to Windchill migration. Boston Engineering displayed a high level of technical expertise both during deployment and in post-deployment support. We feel that Boston Engineering is a true partner and an extension of our company. We look forward to working with Boston Engineering on future projects."

-- Keith Vieira, engineering manager,
Atrenne Computing Solutions

2) "Boston Engineering has continued to be a valuable resource long after the Windchill deployment three years ago. The support response has been fast and reliable at any time of the day."

-- Kevin Johnson, PDM/CAD
administrator, Instrumentation Laboratory

3) "Boston Engineering has taken the time to understand our business processes and provide support that aligns with our goals."

-- Director of PLM Technology, Cycling
Sports Group

About Boston Engineering

Boston Engineering improves the way that people work and live through innovative product design and novel engineering. We manage the entire product development process – from concept to commercialization. Certified for ISO 9001 and ISO 13485, our industry expertise includes consumer products, defense & security, medical devices, robotics, and industrial & commercial products.
