### *Boston Engineering President and Co-Founder Named Chair of National Small Business Association Board of Trustees*

**Waltham, MA** — Product design and engineering consulting firm Boston Engineering is proud to announce that company President and Co-Founder Bob Treiber will serve as Chair of the National Small Business Association (NSBA) Board of Trustees for their 2023 term.

NSBA is a national organization based in Washington, D.C. focused on small business advocacy at the federal level. Its expertise includes a government affairs team representing industry in all 50 states.

“I look forward to ensuring that the needs of small business are top-of-mind for policymakers in D.C.,” says Mr. Treiber. “I am confident that small business can be a shining example for lawmakers on how pragmatism and nonpartisanship can get the job done.”

Mr. Treiber brings many years of small business experience to his role, including nearly three decades managing Boston Engineering, and nearly 10 years on the NSBA Board of Trustees.

“Bob’s drive to examine what we do and how we do it has helped NSBA grow and adapt, and his leadership will be particularly well-suited as we continue to move past the pandemic in 2023,” according to NSBA President Todd McCracken.

Mr. Treiber’s role as chairman will be in working with board members to ensure that the over 65,000 NSBA members’ voices are heard. “This is what makes organizations like NSBA so important—not just to me and the millions of other small-business owners like me, but for future business owners and entrepreneurs,” stated Treiber.

#### **About Boston Engineering**

Boston Engineering provides product design and engineering consulting from concept development through commercialization. The company specializes in solving complex challenges in defense and security, medical devices, and commercial industries. Founded in 1995, Boston Engineering is certified to ISO 9001:2015 and ISO 13485:2016 standards. Boston Engineering is an Ansys Certified Channel Partner. The company is headquartered in Waltham, Mass., and is online at [www.boston-engineering.com](http://www.boston-engineering.com).

#### **About NSBA**

Celebrating more than 85 years in operation, NSBA ([www.nsba.biz](http://www.nsba.biz)) is a member-driven nonpartisan organization advocating on behalf of America’s entrepreneurs. NSBA’s 65,000 members represent every state and every industry in the U.S., and we are proud to be the nation’s first small-business advocacy organization.
